Technical experts who will be involved in prospecting

Name [REDACTED], Managing Director

Qualifications and experience

[REDACTED] is a professional with over 25 years of experience in the aggregates and materials industries. Previously, [REDACTED] was with CEMEX, a global leader in the building materials industry with operations in over 50 countries. After joining RMC UK in 1994, [REDACTED] moved to Readymix plc

in Ireland in 1996 and remained with the company after the acquisition of the Group by CEMEX. During this period, he served as Regional Director for Northern Ireland and also as Managing Director for Ireland. Responsibilities included the strategic development of the business, profit performance of the Irish business unit, staff development, and customer relations. He also worked extensively in the aggregates and materials industry in Ireland and the UK as well as project work across Europe and Australia. [REDACTED] holds a BSc (Hons) in Combined Sciences and a PhD in Civil Engineering and Transport, both from the University of Ulster (UUJ).

Name [REDACTED], Geology and Exploration Manager

Qualifications and experience

EurGeol [REDACTED] MSc, PGeo has 12 years' experience working in the mining industry in grass roots up to advanced stage exploration projects. [REDACTED] has gained diverse commodity experience including precious- and base-metals, iron ore, rare earths, phosphate and lithium, working on projects in North America, Europe and Africa. She attained a postgraduate degree in Geostatistics in 2015 and has since been involved in resource estimates on narrow vein gold and silver, and VMS deposits. [REDACTED] joined Dalradian Gold in late 2015, has managed near-mine surface and underground drilling programmes at Curraghinalt, and led the 2018 mineral resource update which included a 46% increase in M&I gold ounces. [REDACTED] holds a BSc (Hons) in Geoscience from the University of St Andrews and an MSc in Economic Geology from McGill University.

Name [REDACTED], Senior Geologist

Qualifications and experience

[REDACTED] is a geologist with 12 years' industry experience from greenfield exploration through resource development and feasibility studies; predominantly focused on narrow vein precious and base metal deposits. He began his career working on gold projects in Western Australia before returning to the UK where he worked on polymetallic base metal projects in southwest England. [REDACTED] also worked on tin and gold deposits in North Africa and had a spell working in the oil and gas sector. [REDACTED] joined Dalradian Gold in early 2017 and has managed the resource geology team through multiple drill programmes and the 2018 mineral resource update. [REDACTED] has a BSc in Geology with Physical Geography from the University of Southampton and an MSc in Mineral Deposit Evaluation from Imperial College London. He is a Fellow of the Geological Society of London and a Member of the Australian Institute of Geoscientists.
