**Previous experience in mineral prospecting and/or development work**

The OM1 licence has been held continuously since 1985. Open pit mining operations were in place between 2007 and 2012. A resource model was developed using drilling and exploration data, the most recent model was published in 2014. Development of the underground mine began in 2017, over 2000m of development is now in place and test stoping is expected to begin early 2022. Several other base metal and gold exploration targets have been identified within the Lack Inlier, these have recently been re-prioritised in conjunction with a detailed mapping project.

**Details of area under application**

Location/s: Area currently licenced as OM1/16 extends WSW of Omagh town, approximately 20 km to the town of Lack.

Approximate size (sq km): 189 km<sup>2</sup>

Minerals to be explored for: Pyrite, Galena, Chalcopyrite, Sphalerite, Electrum / Au, Ag, Pb, Cu, Zn.

If Minerals include precious metals, have you already applied to the Crown Estate Commissioners for a concurrent licence?

Yes

No

*(please tick)*

**Work programme**

**Geological rationale for making application for the area:**

[Redacted content]

**Work programme (Cont'd)**

**Proposed exploration Programme for the area:**

[Redacted text block]

[Redacted text block]

[Redacted text block]

**Expenditure for proposed work programme**

Estimated *minimum* amount which the company intends to spend carrying out:

Year 1 of programme £ [REDACTED]

Year 2 of programme £ [REDACTED]

Year 3 of programme £ [REDACTED]

Year 4 of programme £ [REDACTED]

Year 5 of programme £ [REDACTED]

Year 6 of programme £ [REDACTED]

Are sufficient funds available now to fund the estimated cost of the work programme?

Yes

No

(please tick)

If 'Yes' and the audited accounts do not show the funds to be available, please provide details of the source

**Technical experts who will be involved in prospecting**

**Name:** [REDACTED]

**Qualifications and experience:** PhD, MSc, B Sc (Hons), FGS and MIMMM. Chief geologist on site. [REDACTED] has been with the Company for over 10 years and is responsible for managing the exploration work over five current Licence areas, in Northern Ireland and in the Republic of Ireland.

**Name:** [REDACTED]

**Qualifications and experience:** Eurgeol, CGeol, PGeo, MSc, DIC, DMS, MIMMM.

[REDACTED] is a Chartered Geologist with 54 years of professional experience in geological mapping and exploration in the mineral industry and government service. [REDACTED] led the first geochemical survey of the Dalradian rocks in Northern Ireland during his tenure at the Geological Survey of Northern Ireland, that yielded the first published indications of gold and the first modern description of the Dalradian structure and stratigraphy in the region, still used today. He subsequently conducted exploration in 15 countries for gold and base metal mining companies.

### Declaration

I declare that to the best of my knowledge the information given in this application is correct.

Signed:

[REDACTED]

Date: 22<sup>nd</sup> December 2021

Name in capitals: [REDACTED]

E-mail: [REDACTED]@galantas.com

**Remember** to enclose *(please tick)*

- Two Ordnance Survey of Northern Ireland outline maps showing the area under application<sup>1</sup>
- Cheque for £450 *(made payable to: The Department for the Economy)*
- Audited accounts for the last three years *(and accounts from the parent Company if the application is from a subsidiary Company)*

Please return your completed form to:
